

FARMERS JOINING

MUCH ENTHUSIASM OVER COUNTY FARM BUREAU PLAN

BIG MEETING SATURDAY

Over One Hundred of County's Leading Farmers Are Active In Promoting the Organization

With nearly one hundred leading farmers in the county working for the organization of a county farm bureau, Nodaway county is going over the top at the meeting Saturday afternoon, when the bureau will be formed and officers elected. J. W. Barber, one of five committeemen in Green township, writes F. B. Naylor, U. S. Agricultural Extension agent in charge of the organization movement, that twenty-six of the best known farmers of Green township have enrolled for membership, and from every township in the county comes word that the movement is meeting with splendid success. Mr. Naylor, who has spent the past three weeks in the different townships helping in the organization, says he believes Nodaway county will have one of the largest membership lists of any county in the state.

The following is a partial list of farmers in the various townships who have taken membership books and who are at work securing members in the bureau:

Mr. Naylor suggests that as these farmers are busy and may not be able to see all in their respective townships that those who desire to become members see one of them at once and become enrolled.

The meeting Saturday afternoon at the court house promises to be the biggest farmers' meeting Maryville has ever had. Every township will be represented by large delegations.

IN BORDER BATTLE

TWO U. S. SOLDIERS KILLED IN FIGHT WITH MEXICANS

MEXICAN LOSS NEAR 100

Trouble Started When Sentries Were Fired On In Attempting to Smuggle Mexican Across Border

Special to The Democrat-Forum.

Nogales, Ariz., Aug. 28.—Commandant Abasola of Nogales, Sonora, garrison today officially expressed his regret of the fatal clash here late yesterday afternoon between Mexicans and American troops in the street fighting in which it is known two American soldiers were killed and twenty-nine were wounded. It is estimated that fully one hundred Mexicans lost their lives. The Americans killed were Capt. J. D. Hungerford and Corporal Barney Lotz.

The fighting followed the alleged efforts of a Mexican custom official to smuggle a fellow countryman across the boundary into the United States. An American sentry attempted to stop him. Two Mexicans fired at the sentry across the street, striking him in the right arm. The fire was returned by American patrols and after Mexicans had rushed from nearby buildings and started shooting across the line from behind buildings and walls, the firing became general.

Reinforcements from an infantry regiment and a negro cavalry regiment were rushed to the border and took up combat positions. It was estimated more than five hundred American soldiers and at least fifty civilians participated in the shooting. It was reported last night that a detachment of cavalry crossed the border in pursuit of the Mexicans, but this was not confirmed. The fighting, which started at 4:05 o'clock, continued without abatement until 5:30 o'clock, when it died down except for an occasional sniping shot along the international street.

Bullets fell in Nogales and civilians were ordered to remain indoors and without the zone of fire. Adobe houses, because their walls cannot be pierced by high power bullets, were especially popular and many families spent the night in these buildings with friends.

OTHER TOWNS HAVE TROUBLE

Maryville Is Not the Only Town Having Difficulty of Staying Within Their Receipts

Other towns in Missouri are having a hard time of it solving the problem of their finances. As the question is now up in Maryville, the following from the Moberly Democrat might be of interest:

Moberly next year may have other troubles besides shortage of water and that is a \$20,000 loss of revenue. It is now claimed that owing to high taxes and other expenses that there is no money in the saloon business. If this be true there will be no licenses taken out for the sale of spirits and the legal sale of intoxicants will be at an end. This would take twenty thousand dollars from the funds used to pay the general expenses of the city. That this would seriously cripple the city and make it impossible for the city to meet all her contracts and necessary obligations no one can doubt. But as it seems inevitable it would seem to be the part of wisdom to take time by the forelock and devise some plan to supply this deficit by taxation. Every city where this revenue has been suddenly withdrawn has been compelled to suffer a period of stagnation for lack of funds to carry on the city's business as usual, except where a tax has been early voted to take the place of this license money. The city of Carrollton when it voted out its saloons immediately called another election and voted a tax sufficiently large to fully make up the license loss and consequently proceeded as usual. The city of Maryville did not do so, and possibly could not, being up to the tax limit, and consequently she is now in distress because she has no money to pay for lights and other expenses of the city. Most cities are like Maryville—up to their limit under the constitution of taxation. The legislature meets in January and would that there could be some way found by that body to relieve cities in Maryville's condition, as well as all that have or may be in her condition. If saloons cannot make money it is evident they will not run and therefore, pay no license. It is a condition, not a theory, that presents itself and therefore why not be wise enough to find a way to avoid the effects of the loss of dollars when it does come.

Marceline Out of Water.
(From Moberly Democrat).

P. K. Weis was in Marceline, Mo., yesterday, where he went to adjust a number of fire insurance losses. He states that Marceline is in worse condition than Moberly at the present time in the matter of water supply. For more than a year the service has been limited to a few hours each day and for the past three months has been entirely discontinued, the town depending entirely on a chemical tank and extinguishers for fire protection. The small remaining supply of water has been reserved for use by the electric light plant and unless it soon rains this supply will be exhausted and the town will be in distress.

PRISONERS TOTAL 112,000.

Special to The Democrat-Forum.
Washington, Aug. 28.—More than 112,000 prisoners and more than 1,300 heavy guns have been captured by the Allied forces on the western front, General March, chief of staff, told newspaper correspondents at his mid-weekly conference today. General March stated that all firing at Nogales had ceased and that troops were moving toward the border.

German Lines of Retirement From Lasigny Bombarded On Both Flanks By Heavy Guns From a Distance of 14 Miles

Special to The Democrat-Forum.
London, Aug. 28.—The French at 2 o'clock this afternoon had reached Selonte, just west of Avricourt. They had also captured Divon, Divette, part of Bois-de-Laserve and had reached Divelfrance. They had also passed and had captured Pont le Veque, just south of Noyon. The retirement of the Germans from Lasigny is imminent, if not already commenced. Scottish troops have taken Facontine le Croiselles.

The lines of German retirement from Lasigny are under a grueling fire which is being concentrated upon the enemy from a distance of fourteen miles on both flanks. The Germans show every sign of weakening in the face of the Allies' offensive along the sixty-mile sector north of the Scarpe to Noyon and the Allied officers are jealously watching for the slightest loophole to launch a new attack. Meanwhile British papers are devoting much space to the peace bluff of the scapegoat German press.

London, Aug. 28.—Once more General Foch has shifted his major operations, and as a result the Germans have been hurled back for a distance of seven and a half miles at some places. The French operating on both sides of the Avre were chosen for the newest stroke and they swept forward in sensational fashion. Two great German strongholds, Roye and Chaulnes, have fallen within the past four hours. In addition, the French war office announced today that twenty-eight other towns have been won back from the Huns in that time.

You Can't Rub It Away; Rheumatism is in the Blood

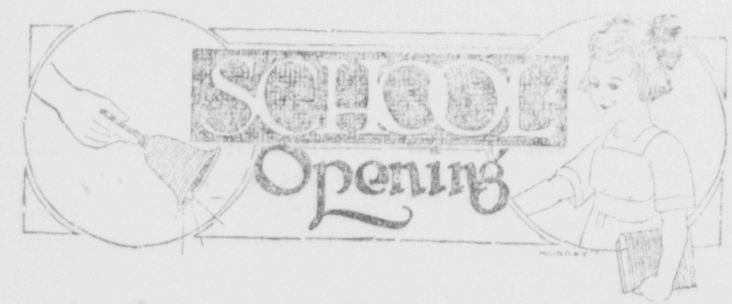

Liniments Will Never Cure.

If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will?

Do not try to rub the pain away, for you will never succeed. Try the sensible plan of finding the cause of the pain, and go after that. Remove the cause, and there can be no pain.

You will never be rid of Rheumatism until you cleanse your blood of the germs that cause the disease. S. S. S. has never had an equal as a blood purifier and scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system.

Get a bottle of S. S. S. at your drug store and get on the right treatment today. If you want special medical advice, you can obtain it free by addressing Medical Director, 23 Swift Laboratory, Atlanta, Ga.

Mohawk A Superior Tire

We select this tire from all others on the American market because in our judgment it is a superior tire.

We have cut into this exceptional tire, examined the White Sea Island fabric, the thick clear cushion rubber and breaker strip, to which is welded the toughest, thick white tread that pure para rubber will make.

We find that every part has exceptional strength and toughness.

Of course a tire of this kind must sell a little higher in price than standard tires—about \$3.00 to \$4.00 per tire—but it is GUARANTEED to be WORTH MUCH MORE.

For instance, practically all standard tires are guaranteed for 3500 miles.

Mohawk Tires are guaranteed in Ford sizes 7500 miles—and 5000 miles in other sizes.

Firestone Tires and Tubes

A standard tire of national reputation. Now made in black tread and gray side wall—a genuine wrapped tread tire, at a very moderate price.

We carry a large stock of tires and have all sizes IN STOCK—from 30x3 to and including 36x4½.

ROYE AND CHAULNES FALL

(Continued from page 1.)

The French line has been advanced north of the Avre almost to the line running from Nesle to Dompierre.

On the British front further successes were announced today. North of the Somme the greater part of the Trones forest had been wrested from the Germans. Feucaurt was finally captured and the British first army has pushed ahead on the Arras-Cambrai road reaching the outskirts of Haucourt, Remy and Boiry Notre Dame. Huge German forces are facing disaster as a result of the sensational advance of the French in the vicinity of Roye and Chaulnes. The vanguard of the French army is now in sight of the Somme, while the infantry and artillery of General Mangin is pressing forward at all points. All the Somme crossings are under fire of the French artillery and the French are undoubtedly taking a large number of prisoners, although no official figures are available at this hour.

Obituary.

Maria A. Partridge was born in Clark county, Illinois, June 23, 1845, and departed this life at her home in Pickering, Mo., August 24, 1918, aged 73 years, 2 months and 1 day.

In the year of 1855 she came with her parents, Jno. R. and Margaret C. Partridge, to Gentry county, Missouri, a few years later moving to Nodaway county, six miles east of Maryville, where she grew to womanhood.

At the age of eighteen years she was united in marriage to H. T. Wray, on February 25, 1864. To them were born eleven children, all of whom are living except one son.

The children are as follows: Theo. K. Wray, Maryville; A. A. Wray, Fredonia, Kans.; Will N. Wray, Guilford; Carl Wray, Guilford; Mrs. Lillian E. Parker, Maryville; Mrs. Persis E. Morin, Parnell; Geo. T. Wray, Worth; Frank W. Wray, died in 1896; Chas. H. Wray, Alberta, Canada; R. L. Wray, Maryville; Mrs. Lola Berkey, Parnell.

At the age of eighteen years Mrs. Wray was converted and united with the Methodist Episcopal church and remained a faithful and consistent member until transferred to the church triumphant. For several years she has been so afflicted that she no longer could attend church but her faith in Christ never wavered. Several weeks ago she suffered a stroke of paralysis, being confined to her bed and had been in constant suffering, but through it all she calmly and patiently awaited the Master's call.

Saturday night about 10 o'clock she peacefully went to sleep to awake in the glory world.

The funeral service was held at the old home church, Myrtle Tree, Monday, August 26, 1918, at 2 o'clock p. m. by her pastor, C. S. Dayhoff of Pickering. A very large crowd was present and there were many beautiful floral offerings. The body was laid to rest in the Myrtle Tree cemetery, six of the sons acting as pallbearers. She leaves besides her husband and ten children, three brothers, William J. Partridge, Wilbur, Wash.; Geo. W. Partridge, Lamar, Colo.; L. J. Partridge, Maryville, Mo.; also numerous other relatives and a host of friends.

EARL G. WALTERS WRITES

Earl G. Walters, Co. C, 348 M. G. N., A. E. F., formerly of Skidmore, now a resident of California, writes Mrs. John M. Barber, his aunt:

"Your most welcome letter arrived last week. I was very glad to hear from you and that all are well. I am feeling fine. This is a good climate; a little wet at present, as it showers most every day.

"We did not stay long at (censored) failed to get to see New York as we were getting our overseas equipment and could not leave camp.

"You sure never appreciate the U. S. until you have had a taste of foreign service with a few English and iron rations scattered along the way.

"They have some fine crops over here and in England. It looks odd to see them cutting wheat with an old cradle. They have some modern binders here, too, but they have to cut the small patches with a cradle.

"We have a fine place here. It is an ideal place for billets. Have a fine stream of water running nearby where we can take a swim. This village is old as the hills. It is older than the mission of California, but a few hundred years over here doesn't mean as much as it does in the U. S. Some of the roads in this country date from the Roman invasion. There are no frame buildings, only those that have been built since the war. All are stone with a tile roof.

"The old church here is very interesting. It was built some time in 1700 and the furnishings seem out of place."

After September 1 This Market
will be conducted on a Strictly
Cash Basis

In order that we may get in line with the general national conservation plan, this market will on and after September 1, be operated on a strictly cash basis, thereby eliminating the overhead expense that is caused by the credit system.

This plan will in the long run be advantageous to the consumer, as it will have a tendency to reduce costs.

BANISH THE BUNT

Agriculture Agent Gives Formula For Removal of Stinking Smut in Wheat

The following formula for removal of stinking smut in wheat is given by H. C. Huston, county agriculture agent of Richardson county, Nebr., who is here for a short time on a vacation:

Bunt, or stinking smut in wheat is quite prevalent but very deceptive because it is on the inside of the kernel. The new spray method is effective, cheap and easily applied. The method is as follows: Be sure to fan the wheat; mix a pint of formalin and a pint of water; scoop into some tight box a few scoopsful of seed and spray with a little of the solution; thoroughly mix the grain; keep the box covered as well as possible to prevent the escape of the gas—it is the gas that does the work. Repeat this process till enough seed is treated.

The grain can be stored or used in two hours. This treatment does not injure the grain for feeding purposes. Oat smut is effectively treated this way. It was thoroughly tried out in wide sections of the country the past season.

The loss from preventable smut is appalling in the United States. Last year enough wheat was lost from smut to feed a million soldiers in France for one year; enough oats were lost to feed a million cavalry horses for one year; enough rye and barley to make 400,000 barrels of wheat flour substitute.

Be patriotic and incidentally make a few more dollars. Back the boys up. Banish the bunt.

Have you stinking smut in your wheat? Test it out and see. If it is very badly affected you can tell by pouring some of the seed into some water. The smutted kernels will rise to the top. If only mildly affected it is not easily noticed. It is wise to always treat. Then you know you are safe. The smutted berries are lighter than the others and must be fanned out to be safe.

I shall be glad to demonstrate this method if the material is furnished. One pint of formalin should cost not more than a dollar. Any spray pump will do provided it makes a mist of the solution. Care must be used or one quart of the solution will not cover fifty bushels.
